Pursuant to requirements specified in TN Rule 0400-12-01-.07(9)(c), the Safety-Kleen facility referenced above has recently modified their Part B permit to reflect updated emergency contact information contained in their Contingency Plan. Additionally, a second Type 1 modification was made to the RCRA Part B permit for administrative changes made to the facility Contingency Plan. The "Facility Description" and "Fire Control Procedures" sections of the Contingency Plan were updated to reflect the current accommodations for office space, and the current contents of above ground storage tanks on site.
